## Planning A Large Event?

For large-scale public events, let Edmonton Bouncy Castle handle your power requirements. Power needs are often overlooked and can have significant impact on the success of the event.

In order to effectively run multiple large inflatables, we suggest considering a robust towable generator that can accommodate the energy demands and has a sufficient fuel capacity to sustain the entire event. If you have any questions or require further information, please do not hesitate to contact us by phone or email.
